**Operational update**

In the first six months of 2022 the Business has continued to trade well with strong Core revenue<sup>1</sup> growth in line with the Board's expectations and outpacing the revenue impact of strategic disposals. Continued progress in the conversion of Distribution as a Service ("DaaS") revenue has seen a greater proportion of these existing revenues recognised in H1. On a full year basis, the current core revenue expectation is trading at the upper end of the range of our medium term objective<sup>4</sup>.

With the continued digitisation of the Business and successful conversion and scaling of DaaS, earnings quality continues to grow in absolute terms with SaaS and subscription income delivering c.66% of our expanded Core revenues.

Underlying operating cash flow conversion remains strong, in excess of 120%. £7.6m of cash at 30 June 2022, together with the £45m Revolving Credit Facility fully undrawn, provides significant financial resources to fund growth both through organic investment and strategic acquisitions.

**Notice of Interim Results**

Fintel intends to publish its interim results for the six months ended 30 June 2022 on 20 September 2022.

**Matt Timmins, Joint CEO of Fintel plc, said:**

"We are delighted to report continued solid trading and earnings quality in the first half of the year, in line with our strategic goals and Board expectations. Growth in our Core business has been strong and in-line with the top end of our medium-term objectives communicated in our CMD (Dec20)<sup>4</sup> with the balance of new revenues continuing to come through SaaS and subscriptions.

"Increasing regulation continues to drive market demand for our unique Services and fintech offering. Our strong balance sheet and cash flow conversion provides the financial agility to pursue strategic acquisitions and we remain confident of delivering our strategic goals and growth ambitions."

**Notes**

<sup>1</sup> Core business excludes revenues from Panel Management and Surveying.

<sup>2</sup> Adjusted EBITDA represents earnings before interest, tax, depreciation, amortisation, share option charges and operating exceptional costs.

<sup>3</sup> Underlying operating cash flow conversion is calculated as underlying cash flow from operations (adjusted operating profit, adjusted for changes in working capital, depreciation, amortisation, CAPEX and share based payments) as a percentage of adjusted operating profit.

<sup>4</sup> Medium term Core Revenue objective: Core revenue growth between 5% and 7% annually.
